

SIJIL KETUA AUDIT NEGARA MENGENAI PENYATA KEWANGAN PERBADANAN PINJAMAN SABAH BAGI TAHUN BERAKHIR 31 DISEMBER 2021

KETUA AUDIT NEGARA MALAYSIA

## SIJIL KETUA AUDIT NEGARA MENGENAI PENYATA KEWANGAN PERBADANAN PINJAMAN SABAH BAGI TAHUN BERAKHIR 31 DISEMBER 2021

#### Sijil Mengenai Pengauditan Penyata Kewangan

#### Pendapat

Saya telah memberikan kuasa kepada firma audit swasta di bawah Subseksyen 7 (3) Akta Audit 1957 [*Akta 62*] untuk mengaudit Penyata Kewangan Penyata Kewangan Perbadanan Pinjaman Sabah. Penyata kewangan tersebut merangkumi Penyata Kedudukan Kewangan pada 31 Disember 2021 Perbadanan Pinjaman Sabah dan Kumpulan dan Penyata Pendapatan Komprehensif, Penyata Perubahan Dalam Ekuiti, Penyata Aliran Tunai serta Ringkasan Asas Perakaunan Utama bagi tahun berakhir pada tarikh tersebut dan nota kepada penyata kewangan termasuklah ringkasan polisi perakaunan yang signifikan seperti yang dinyatakan pada muka surat 4 hingga 53.

Pada pendapat saya, penyata kewangan ini memberikan gambaran yang benar dan saksama mengenai kedudukan kewangan Perbadanan Pinjaman Sabah dan Kumpulan pada 31 Disember 2021 dan prestasi kewangan serta aliran tunai bagi tahun berakhir pada tarikh tersebut selaras dengan Piawaian Pelaporan Kewangan Malaysia (MFRS) dan keperluan Enakmen Tubuh No.6 tahun 1984.

#### Asas Kepada Pendapat

Pengauditan telah dilaksanakan berdasarkan Akta Audit 1957 dan International Standards of Supreme Audit Institutions. Tanggungjawab saya dihuraikan selanjutnya di perenggan Tanggungjawab Juruaudit Terhadap Pengauditan Penyata Kewangan dalam sijil ini. Saya percaya bahawa bukti audit yang diperoleh adalah mencukupi dan bersesuaian untuk dijadikan asas kepada pendapat saya.

#### Kebebasan dan Tanggungjawab Etika Lain

Saya adalah bebas daripada Perbadanan Pinjaman Sabah dan Kumpulan serta telah memenuhi tanggungjawab etika lain berdasarkan International Standards of Supreme Audit Institutions.

#### Maklumat Lain Selain Daripada Penyata Kewangan dan Sijil Juruaudit Mengenainya

Ahli Perbadanan, Perbadanan Pinjaman Sabah bertanggungjawab terhadap maklumat lain dalam Laporan Tahunan. Pendapat saya terhadap Penyata Kewangan Perbadanan Pinjaman Sabah dan Kumpulan tidak meliputi maklumat lain selain daripada penyata kewangan dan Sijil Juruaudit mengenainya dan saya tidak menyatakan sebarang bentuk kesimpulan jaminan mengenainya.

#### Tanggungjawab Ahli Perbadanan Terhadap Penyata Kewangan

Ahli Perbadanan bertanggungjawab terhadap penyediaan Penyata Kewangan Perbadanan Pinjaman Sabah dan Kumpulan yang memberi gambaran benar dan saksama selaras dengan Piawaian Pelaporan Kewangan Malaysia (MFRS) dan keperluan Enakmen Tubuh No.6 Tahun 1984. Ahli Perbadanan juga bertanggungjawab terhadap penetapan kawalan dalaman yang perlu bagi membolehkan penyediaan Penyata Kewangan Perbadanan Pinjaman Sabah dan Kumpulan yang bebas daripada salah nyata yang ketara, sama ada disebabkan fraud atau kesilapan.

Semasa penyediaan Penyata Kewangan Perbadanan Pinjaman Sabah dan Kumpulan, Ahli Perbadanan bertanggungjawab untuk menilai keupayaan Perbadanan Pinjaman Sabah dan Kumpulan untuk beroperasi sebagai satu usaha berterusan, mendedahkannya jika berkaitan serta menggunakannya sebagai asas perakaunan.

#### Tanggungjawab Juruaudit Terhadap Pengauditan Penyata Kewangan

Objektif saya adalah untuk memperoleh keyakinan yang munasabah sama ada Penyata Kewangan Perbadanan Pinjaman Sabah dan Kumpulan secara keseluruhannya adalah bebas daripada salah nyata yang ketara, sama ada disebabkan fraud atau kesilapan, dan mengeluarkan Sijil Juruaudit yang merangkumi pendapat saya. Jaminan yang munasabah adalah satu tahap jaminan yang tinggi, tetapi bukan satu jaminan bahawa audit yang dijalankan mengikut International Standards of Supreme Audit Institutions akan sentiasa mengesan salah nyata yang ketara apabila ia wujud. Salah nyata boleh wujud daripada fraud atau kesilapan dan dianggap ketara sama ada secara individu atau agregat sekiranya boleh dijangkakan dengan munasabah untuk mempengaruhi keputusan ekonomi yang dibuat oleh pengguna berdasarkan penyata kewangan ini.

Sebagai sebahagian daripada pengauditan mengikut International Standards of Supreme Audit Institutions, saya menggunakan pertimbangan profesional dan mengekalkan keraguan profesional sepanjang pengauditan. Saya juga:

- a. mengenal pasti dan menilai risiko salah nyata ketara dalam Penyata Kewangan Perbadanan Pinjaman Sabah dan Kumpulan, sama ada disebabkan fraud atau kesilapan, merangka dan melaksanakan prosedur audit yang responsif terhadap risiko berkenaan serta mendapatkan bukti audit yang mencukupi dan bersesuaian untuk memberikan asas kepada pendapat saya. Risiko untuk tidak mengesan salah nyata ketara akibat daripada fraud adalah lebih tinggi daripada kesilapan kerana fraud mungkin melibatkan pakatan, pemalsuan, ketinggalan yang disengajakan, representasi yang salah, atau mengatasi kawalan dalaman;
- memahami kawalan dalaman yang relevan untuk merangka prosedur audit yang bersesuaian tetapi bukan untuk menyatakan pendapat mengenai keberkesanan kawalan dalaman Perbadanan Pinjaman Sabah dan Kumpulan;
- c. menilai kesesuaian dasar perakaunan yang diguna pakai, kemunasabahan anggaran perakaunan dan pendedahan yang berkaitan oleh Ahli Perbadanan;
- d. membuat kesimpulan terhadap kesesuaian penggunaan asas perakaunan untuk usaha berterusan oleh Ahli Perbadanan dan berdasarkan bukti audit yang diperoleh, sama ada wujudnya ketidakpastian ketara yang berkaitan dengan peristiwa atau keadaan yang mungkin menimbulkan keraguan yang signifikan terhadap keupayaan Perbadanan Pinjaman Sabah atau Kumpulan sebagai satu usaha berterusan. Jika saya membuat kesimpulan bahawa ketidakpastian ketara wujud, saya perlu melaporkan dalam Sijil Juruaudit terhadap pendedahan yang berkaitan dalam Penyata Kewangan Perbadanan Pinjaman Sabah dan Kumpulan atau, jika pendedahan tersebut tidak mencukupi, pendapat saya akan diubah. Kesimpulan saya dibuat berdasarkan bukti audit yang diperoleh sehingga tarikh Sijil Juruaudit;
- e. menilai persembahan secara keseluruhan, struktur dan kandungan Penyata Kewangan Perbadanan Pinjaman Sabah dan Kumpulan, termasuk pendedahannya, dan sama ada penyata kewangan tersebut telah melaporkan asas-asas urus niaga dan peristiwaperistiwa yang memberikan gambaran saksama; dan
- f. mendapatkan bukti audit yang mencukupi dan bersesuaian berkaitan maklumat kewangan entiti dan aktiviti perniagaan dalam Kumpulan untuk memberikan pendapat terhadap Penyata Kewangan kumpulan. Saya bertanggungjawab untuk hala tuju, pengawasan dan pelaksanaan pengauditan kumpulan. Saya hanya bertanggungjawab terhadap pendapat saya.

Ahli Perbadanan telah dimaklumkan, antaranya mengenai skop dan tempoh pengauditan yang dirancang serta penemuan audit yang signifikan termasuk kelemahan kawalan dalaman yang dikenal pasti semasa pengauditan.

Saya juga telah memaklumkan ahli perbadanan bahawa saya telah mematuhi keperluan etika yang berkaitan dengan kebebasan, dan telah memaklumkan semua hubungan dan hal-hal lain yang berkemungkinan menjejaskan kebebasan dan langkah pencegahan yang bersesuaian, sekiranya berkaitan.

#### Laporan Mengenai Keperluan Perundangan dan Peraturan Lain

Berdasarkan keperluan Enakmen Tubuh No.6 Tahun 1984, saya juga melaporkan syarikat subsidiari yang tidak diaudit oleh saya, telah dinyatakan di Nota 5 dan 23 dalam penyata kewangan.

#### Hal-hal Lain

Sijil ini dibuat untuk Ahli Perbadanan, Perbadanan Pinjaman Sabah berdasarkan keperluan Enakmen Tubuh No.6 tahun 1984 dan bukan untuk tujuan lain. Saya tidak bertanggungjawab terhadap pihak lain bagi kandungan sijil ini.

#### (Incorporated under Credit Corporation Ordinance, as amended)

# Summary of Significant Accounting Policies for the financial year ended 31 December 2021

The following accounting policies have been used consistently in dealing with items that are considered material in relation to the financial statements. These policies have been consistently applied to all the financial years presented, unless otherwise stated.

#### **General information**

Sabah Credit Corporation was incorporated on 15 June 1955 under Credit Corporation Ordinance, 1955 which was later repealed and replaced by Credit Corporation Enactment, 1981.

The Corporation is principally engaged to promote the economic development of Sabah through financing and facilitating the grant of financial credits to small and medium scaled agricultural, industrial, housing, rural and/or urban developments and to stimulate and facilitate private investments in Sabah by local and external capital funds.

All business activities and transactions are carried out at Wisma PPS situated in DonggongonTownship, Penampang and its branches located in major towns of Sabah.

Sabah Credit Corporation has been appointed by the State Government of Sabah to manage the Sabah State Urban Transformation Centre.

There were no significant changes to the principal activities during the financial year.

#### 1 Basis of preparation of the financial statements

The financial statements of the Group and the Corporation have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards and the requirement of the Credit Corporation Enactment 1981.

The financial statements are presented in Ringgit Malaysia (RM).

The financial statements have been prepared under the historical cost convention, except as disclosed in the summary of significant accounting policies.

The preparation of financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of the revenues and expenses during the reported period. It also requires board members to exercise their judgement in the process of applying the Group's and the Corporation's accounting policies. Although these estimates and judgement are based on the board members best knowledge of current events and actions, actual results may differ.

#### (a) Amendments to MFRSs that were Adopted or Early Adopted by the Group and Corporation.

The Group and the Corporation has adopted the following in the current year:

Effective for annual periods commencing on or after 1 January 2021 MFRS 140 'Investment Property'

The details and effects of the changes on the application of the new accounting policies will be explained below.

Other than that, the adoption of other amendments listed above did not have any impact on the current period or any prior period and is not likely to affect future periods.

#### (Incorporated under Credit Corporation Ordinance, as amended)

## Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 1 Basis of preparation of the financial statements (continued)

#### (a) Amendments to MFRSs that were Adopted or Early Adopted by the Group and Corporation (continued)

#### MFRS 140 Investment Property

Investment property is property owned either by the Group or leased under a finance lease held to earn rental income or to add capital value, or both, not for use in the production or supply of goods or services, or for administrative purposes, or in the ordinary course of business.

Investment properties consist of investment properties that have been completed and properties that are being built or developed for future use as investment properties. Properties held under operating leases are classified as investment properties when the definition of investment property is reached.

Investment properties include transaction costs, initially measured at cost. The cost of replacing part of an existing investment property when the cost is incurred, is included in the amount if the recognition criteria are met. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment losses. The depreciation policy for investment properties is in line with the depreciation policy for property, plant and equipment as set out in Note xx.

Investment properties are derecognised when disposed of or no longer in regular use and no future returns are expected from such disposal. Any gain or loss from the discontinuation or disposal of an investment property is recognized in profit or loss in the year in which it arises. Amendments to or from investment properties are only made when there is a change in use.

#### 2 Critical accounting estimates and judgements

#### (i) Depreciation of Equipment

The estimates for the residual values, useful lives and related depreciation charges for the equipment are based on commercial and production factors, which could change significantly as a result of technical innovations and competitors' actions in response to the market conditions. Management anticipates that the residual values of its equipment will be insignificant. As a result, residual values are not being taken into consideration for the computation of the depreciable amount. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

#### (ii) Impairment of Non-Financial Assets

When the recoverable amount of an asset is determined based on the estimate of the value-in-use of the cashgenerating unit to which the asset is allocated, the management is required to make an estimate of the expected future cash flows from the cash-generating unit and also to apply a suitable discount rate in order to determine the present value of those cash flows.

#### (iii) Impairment losses on loans, advances and financing

The measurement of impairment losses on loans, advances and financing requires judgement. In particular, the estimation of the amount and timing of future cash flows, the assessment of a significant increase in credit risk and incorporation of forward-looking information in the measurement of impairment losses. These estimates are driven by a number of factors, changes in which can result in different levels of impairment losses. The impairment losses computed based on the expected credit losses ("ECL") models are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies.

#### (Incorporated under Credit Corporation Ordinance, as amended)

# Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 2 Critical accounting estimates and judgements (continued)

(iii) Impairment losses on loans, advances and financing (continued)

A number of significant judgement are also required in applying the accounting requirements for measuring impairment losses, such as determining critieria for significant increase in credit risk, choosing appropriate models and assumptions for the measurement of impairment losses, establishing the segmentation of loans for purposes of measuring impairment losses on a collective basis, determining the number of economic inputs as well as the effect on default rates and recovery rates, and selecting forward-looking macroeconomic scenarios and determining its probability-weightings.

For credit-impaired loans, advances and financing which are individually assessed, judgement by management is required in the estimation of the amount and timing of future cash flow in the determination of impaired losses. In estimating these cash flows, judgements are made about the realisable value of collateral pledged and the borrower's financial position. These estimations are based on assumptions and the actual result may differ, hence resulting in

#### (iv) Defined Benefit Plan

The defined obligation is determined based on actuarial valuation. The actuarial valuation involves making assumptions regarding the discount rate, future salary increases and attrition rates. Due to the long term nature of the defined benefit plan, such estimates are subject to significant uncertainty. The amount of defined benefit asset recognised in the statement of financial position is limited to the present value of economic benefits in the form of refunds or reductions in future contributions to the fund. The levels of future contributions to the plan which are used to assess this limit is subject to some uncertainties due to other assumptions made regarding fund membership levels and future salary increases.

#### 3 Summary of significant accounting policies

#### A Recognition of interest income

Interest income and expense for all interest-bearing financial instruments are recognised within "interest income" and "interest expense" in the profit or loss using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instruments or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. Interest income is recognised using the effective interest method. When a loan and receivable is impaired, the Group and the Corporation reduces the carrying amount to its recoverable amount and continues unwinding the discount as interest income. Interest income on impaired loan and receivables are recognised using the original effective interest rate.

Loan arrangement fees and commissions are recognised as income when all conditions precedent are fulfilled. Commitment fees and guarantee fees which are material are recognised as income based on time apportionment. Service charges and other fee income are recognised as income when the services are rendered.

Dividend income is recognised when the rights to receive payment is established.

Rental income is recognised on an accrual basis based on the rental agreements.

#### B Recognition of fees and other income (Non-interest income)

Revenue from contracts with customers deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers.

#### (Incorporated under Credit Corporation Ordinance, as amended)

## Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### B Recognition of fees and other income (Non-interest income) (continued)

Revenue is recognised when a customer obtains control of a goods or services and thus has the ability to direct the use and obtain the benefits from the good or service. The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to the customer in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services.

#### **C** Financial instruments

Financial assets and financial liabilities are recognised when, and only when the Group and the Corporation become a party to the contractual provisions of the instruments.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument classified as a liability are reported as an expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity.

Financial instruments are offset when the Group and the Corporation has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

Financial assets and financial liabilities are initially measured a fair value. Transaction costs that are directly attributable to the acquisition or issue of the financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs that are directly attributable to the acquisition of financial assets or financial liabilities at fair value of the financial assets or financial assets or financial assets or financial assets or financial assets are directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

#### **Effective interest rate method**

The effective interest rate method is a method of calculating the amortised cost of a financial asset and of allocating profit income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

#### D Financial assets

#### (a) Classification

The Group and the Corporation classify their financial assets into the following categories: at fair value through profit or loss and loans and receivables. Management determines the classifications of its financial assets up-front at the point when transactions are entered into.

#### (i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss comprise of financial assets held-to-maturity and other financial assets designated by the Group and the Corporation as fair value through profit or loss upon initial recognition.

#### (ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

#### (Incorporated under Credit Corporation Ordinance, as amended)

# Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### D Financial assets (continued)

#### (b) Recognition and initial measurement

Regular purchases and sales of financial assets are recognised on the settlement date, the date an asset is delivered to or by the Group and the Corporation.

Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Transaction costs for securities carried at fair value through profit or loss are taken directly to the profit or loss.

#### (c) Subsequent measurement

Financial investments at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gains or losses arising from de-recognition or impairment of the securities are recognised in the profit or loss.

Interest from financial assets held at fair value through profit or loss and financial investments held-tomaturity is calculated using the effective interest method and is recognised in the profit or loss.

Loans and receivables are initially recognised at fair value – which is the cash consideration to originate or purchase the loan including the transaction costs, and measured subsequently at amortised cost using the effective interest rate method. Interest on loans is included in the profit or loss. In the case of impairment, the impairment loss is reported as a deduction from the carrying value of the loan and recognised in the profit or loss.

#### E Financial liabilities

Financial liabilities are measured at amortised cost, except for trading liabilities and liabilities designated at fair value, which are held at fair value through profit or loss. Financial liabilities are initially recognised at fair value plus transaction costs for all financial liabilities not carried at fair value through profit or loss. Financial liabilities at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in profit or loss. Financial liabilities are derecognised when extinguished.

#### (a) Financial liabilities at fair value through profit or loss

Financial liabilities designated at fair value through profit or loss upon initial recognition. The Corporation does not have any non-derivative financial liabilities designated at fair value through profit or loss.

#### (b) Financial liabilities at amortised cost

Financial liabilities that are not classified as at fair value through profit or loss fall into this category and are measured at amortised cost.

#### **F** Impairment of financial assets

A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

#### (Incorporated under Credit Corporation Ordinance, as amended)

# Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### F Impairment of financial assets (continued)

At each reporting date, the Group and the Corporation assess whether financial assets are impaired. In general, a financial asset is impaired when one or more event have a detrimental impact on the estimated future cash flows of the financial assest have occured.

The criteria the Group and the Corporation use to determine that there is objective evidence of impairment loss include indications that the borrower or a group computed in confirmity with MFRS 9. Consistent with previous years and the adoption of MFRS 9, the Group and the Corporation has adopted a more stringent classification policy on non-performing loans, whereby loans are classified as non-performing and sub-standard when repayments are in arrears for more than three (3) months from the first day of default or after maturity date.

Allowance for impairment will be made based on the following three-stage approach which reflects the change in credit quality of the financial instrument since initial recognition:

i) Stage 1:12-month ECL

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the ECL associated with the probability of default events occuring within next 12 months will be recognised.

ii) Stage 2 : Lifetime ECL - non-credit impaired

For exposures where there has been a significant increase in credit risk since initial recognition but that are noncredit impaired, a lifetime ECL will be recognised.

iii) Stage 3 : Lifetime ECL - credit impaired

Financial assets are assessed as credit impaired when one or more events that has detrimental impact on the estimated future cash flows of that asset have occured. For financial assets that are impaired, a lifetime ECL will be recognised.

The assessment of credit risk, as well as the estimation of ECL, are required to be unbiased, probability-weighted and should incorporate all available information which is relevant to the assessment, including information about past events, current conditions and reasonable and supportable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL should also take into account the time value of money.

The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The asset's carrying amount is reduced and the amount of the loss

If 'loans and receivables' or a 'held-to-maturity investment' has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedience, the Group and the Corporation may measure impairment on the basis of an instrument's fair value using an observable market price.

When an asset is uncollectible, it is written-off against the related allowance account. Such assets are written-off after taking into consideration the realisable value of collateral, if any, when in the judgement of the management, there is no prospect of recovery.

If in a subsequent period, the amount of impairment losses decreases and the decrease can be related objectively to an event occuring after the impairment was recognised (such as an improvement in the debtor's credit rating), the previously recognised impairment loss is reversed by adjusting the allowance account. The amount of the

#### (Incorporated under Credit Corporation Ordinance, as amended)

# Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### G Derecognition of financial assets and financial liabilities

Financial assets are derecognised when the contractual rights to receive the cash flows from these assets have ceased to exist or the assets have been transferred and substantially all the risks and rewards of ownership of the assets are also transferred (that is, if substantially all the risks and rewards have not been transferred, the Group and the Corporation tests control to ensure that continuing involvement on the basis of any retained powers of control does not prevent derecognition). Financial liabilities are derecognised when they have been redeemed or otherwise extinguished.

Collateral furnished by the Corporation under standard repurchase agreements transactions is not derecognised because the Group and the Corporation retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and the criteria for derecognition are therefore not met.

#### H Property and equipment and depreciation

Freehold land is not depreciated as it has an infinite life and work-in-progress which are not yet for use are not depreciated. Land where the estimate leasing lives exceed 50 years is classified as long-term leasehold land.

Property and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. Cost includes its purchase price and any cost that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the Corporation and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance costs are charged to the profit or loss during the financial year in which they are incurred.

Property and equipment are depreciated on a straight line basis to write off the cost of the assets to their residual values over their estimated useful lives, summarised as follows:

Leasehold land	0.11% to 2.326%
Buildings	2% - 10%
Motor vehicles	20%
Office furniture and equipment	20%
Computer equipment	20%

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any, and the net carrying amount is recognised in the income statement.

#### I Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment.

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

#### (Incorporated under Credit Corporation Ordinance, as amended)

## Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### I Impairment of non-financial assets (continued)

The impairment loss is charged to the profit or loss unless it reverses a previous revaluation in which case it is charged to the revaluation surplus. Impairment losses on goodwill are not reversed. In respect of other assets, any subsequent increase in recoverable amount is recognised in profit or loss unless it reverses an impairment loss on a revalued asset in which case it is taken to revaluation surplus reserve.

#### J Income taxes

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that its relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group's and the Corporation's operate and generate taxable income.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the amounts attributed to assets and liabilities for tax purposes and their carrying amounts in the financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, unused tax losses or unused tax credits can be utilised.

Deferred tax liability is recognised for all taxable temporary differences associated with investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the parent and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the deductible temporary difference can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to taxes levied by the same taxation authority on either the taxable entity or different taxable entities, where there is an intention to settle the balance on a net basis.

#### **K** Provision

Provisions are recognised by the Group and the Corporation when all of the following conditions have been met:

(i) the Group and the Corporation have a present legal or constructive obligation as a result of past event;(ii) it is probable that an outflow of resources to settle the obligation will be required; and(iii) a reliable estimate of the amount of obligation can be made.

Where the Group and the Corporation expect to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. Provisions are not recognised for future operating losses.

#### (Incorporated under Credit Corporation Ordinance, as amended)

# Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### **K Provision** (continued)

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present values of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

#### L Cash and cash equivalents

Cash and cash equivalents are cash and short-terms funds held for the purpose of meeting short term commitments and readily convertible into cash without significant risk of changes in value.

For the purpose of the statements of cash flows, cash and cash equivalents comprise cash on hand, deposits held at call with the Group and the Corporation, other short term, highly liquid investments with original maturities of three (3) months or less and the Group's and the Corporation's overdrafts. Deposits held as pledged securities for term loans granted are not included as cash and cash equivalents. The Group's and the Corporation's overdrafts are included within borrowings in current liabilities in the statements of financial position.

#### M Share capital

#### (a) Classification

Ordinary shares is classified as equity. Other shares are classified as equity and/or liability according to the contractual substance of the particular instrument. Distributions to holders of a financial instrument classified as an equity instrument are charged directly to equity.

#### (b) Share issue costs

Incremental external costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

#### (c) Dividends

Dividends on ordinary is recognised as a liability when the shareholders' right to receive the dividend is established.

#### N Investment in jointly controlled entity

The Group treats as a jointly controlled entity, corporations, partnerships or other entities over there is contractually agreed sharing of control by the Group with one or more parties where the strategic financial and operating decisions relating to the entities require unanimous consent of the parties sharing control. Investment in a jointly controlled entity is stated at cost less accumulated impairment losses.

Where there is an indication of impairment, the carrying amount of the investment is assessed. A write down is made if the carrying amount exceeds its recoverable amount. The Group's interest in jointly controlled entities is accounted for in the consolidated Financial Statement by the equity method of accounting.

#### (Incorporated under Credit Corporation Ordinance, as amended)

# Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### N Investment in jointly controlled entity (continued)

Equity accounting involves recognising the Group's share of the results of the joint venture in the profit or loss. Where necessary, when applying the equity method, adjustments are made to the financial statements of joint venture to ensure consistency of the accounting policies with those of the Group.

#### 0 Employee benefit

#### (a) Defined contribution plans

(i) Short term employee benefits

Wages, salaries, paid annual leave, medical benefits, bonuses and non-monetary benefits are accrued in the period in which the associated services are rendered by the employees of the Group and the Corporation.

The amendments to MFRS 119 require an entity to use actuarial assumptions to determine current service cost and net interest for the remainder of the reporting period after the plan amendment, curtailment or settlement when the entity remeasures its net defined benefit liability (asset). As there are no proposed changes in the terms or membership of the Group's and the Corporation's defined benefit plan which may result in plan amendment, curtailment or settlement, the adoption of the amendments is not expected to have any financial impact on the Group and of the Corporation.

(ii) Contribution to Employees Provident Fund ( "EPF")

For defined contribution plan, the Group and the Corporation pay contribution to Employee Provident Fund (EPF) on a mandatory basis. The Group and the Corporation have no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expenses in the period

#### P Contingent assets and liabilities

The Group and the Corporation do not recognise contingent assets and liabilities other than those arising from business combination, but discloses its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group and the Corporation or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in the extremely rare case where there is a liability that cannot be recognised because it cannot be measured reliably. However, contingent liabilities do not include financial guarantee contracts.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group and the Corporation. The Group and the Corporation do not recognise contingent assets but discloses its existence where inflows of economic benefits are probable, but not virtually certain.

#### (Incorporated under Credit Corporation Ordinance, as amended)

#### Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### **Q** Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost, any difference between initial recognised amount and the redemption value is recognised in the profit or loss over the period of the borrowings using the effective interest method.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

#### R Lease

#### (i) Recognition of Lease as a Lessee

The Group and the Corporation consider whether a contract is, or contains a lease. A lease is defined as a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration. To apply this definition, the Group and the Corporation assess whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group and the Corporation.

- the Group and the Corporation have the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the define scope of the contract;

- the Group and the Corporation have the right to direct the use of the identified asset throughout the period of use. The Group and the Corporation assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

#### (ii) Measurement of Lease as a Lessee

At lease commencement date, the Group and the Corporation recognise a right-of-use asset (other than a leasehold land) and a lease liability on the statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group and the Bank, an estimate of any costs to dismantle and remove the asset or to restore the asset or the site on which it is located at the end of the lease, and any lease payments made in advance of the lease commencement date, less any lease incentives received.

The right-of-use asset (other than leasehold land) is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, and adjusted for certain measurements of the lease liability, if any.

The lease liability is measured at amortised cost using effective interest method, and is initially measured at the present value of the lease payments unpaid at the commencement date, discounted using the incremental borrowing rates of the Bank and the respective entities within the Group. Lease payments included in the measurement of the lease liability are made up of fixed payments (including

in-substance fixed payments) and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the lease liability will be reduced for payments made and increased for interest accrued. It is remeasured to reflect any reassessment or modification, or if there are changes in insubstance fixed payments. When the lease liability is remeasured in this way, a corresponding adjuttment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

#### (Incorporated under Credit Corporation Ordinance, as amended)

#### Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### R Lease (continued)

#### (ii) Measurement of Lease as a Lessee (continued)

The Group and the Corporation present right-of-use assets that do not meet the definition of investment property and lease liabilities separately in the statement of financial position.

The Group and the Corporatoin have elected not to recognised right-of-use assets and lease liabilities with lease term of less than 12 months and leases of low value assets. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

Leasehold land is recognised at cost on initial measurement. Subsequent to initial recognition, leasehold land is stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Leasehold land is depreciated over the remaining leasehold period. When the use of leasehold land changes from owner-occupied to investment property, the leasehold land is measured to fair value and reclassified as

#### (iii] Recognition and Measurement of Leases as a lessor

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset, and classified as an operating lease if it does not.

Rental income from operating leases is recognised on a staright-line basis over the lease term.

#### R Related parties

A party is related to an entity if (referred to as the "reporting entity"):-

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
- i) has control or joint control over the reporting entity;
- ii) has significant influence over the reporting entity; or
- iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.

(b) An entity is related to a reporting entity if any of the following conditions applies:

i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);

ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);

iii) Both entities are joint ventures of the same third party;

iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;

v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity;

vi) The entity is controlled or jointly controlled by a person identified in (a) above; or

vii)A person identified in (a)(i) above has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

#### (Incorporated under Credit Corporation Ordinance, as amended)

# Summary of Significant Accounting Policies for the financial period ended 31 December 2021 (continued)

#### 3 Summary of significant accounting policies (continued)

#### R Related parties (continued)

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

#### **S** Basis of consolidation

The consolidated financial statement include the financial statements of the Corporation, its subsidiary companies and its controlled entities up to the end of the financial year.

Control is achieved when the Corporation:

- has power over the investee;
- is exposed, or has rights, to variable returns from the involvement with the investee; and
- has the ability to affect those returns through its power over investee.

The Corporation reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of these elements of control listed above.

When the Corporation has less than a majority of the voting rights but has rights that are sufficient to give it the practical ability to direct the relevent activities unilaterally, the Corporation considers all facts and circumstances in assessing whether or not the voting rights give it power, including:

- the size of the Corporation's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;

- potential voting rights held by the Corporation, other vote holders or other parties;

- rights arising from other contractual arrangements; and

- any additional facts and circumstances that indicate the Corporation has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Subsidiary companies are consolidated from the date on which the Corporation controls, and ceases from the date that control ceases. The financial results of the subsidiary companies are included in the consolidated financial statements from the date that control is obtained until the date that the Corporation loses control.

Changes in the Group's ownership interest in a subsidiary company which does not result in a loss of control are treated as transactions between equity holders and are reported in equity.

If the Corporation loses control of a subsidiary company, the assets and liabilities of the subsidiary company, including any goodwill, and non-controlling interests are derecognised at their carrying value on the date that control is lost. Any remaining investment in the entity is recognised at fair value. The difference between fair value of consideration received and the amounts derecognised and the remaining fair value of the investment is recognised as a gain or loss on disposal in the consolidated in profit or loss.

(Incorporated under Credit Corporation Ordinance, as amended)

#### (iv) Impact on Covid-19

The outbreak of Covid-19 has resulted in global economic and social uncertainties. Malaysian government has announced an unprecedented large-scale social restriction – Movement Control Order (MCO) for the first time effective in 18 March 2020 to curb the outbreak of Covid-19.

In July 2021, Bank Negara has announced to continued the moratorium to all affected individuals (B40, M40 and T20), micro-enterprises, and SMEs. However, the Corporation only granted repayment deferment for 3 months. Applications are open from July 2021 to December 2021 to the existing clients provided the application is approved.

The moratorium has affected the monthly profit estimated of RM18.8 million. However, the monthly profit continue to accrue during the moratorium period.

### (b) Risk management objectives and policies

Dashboard committes cum as risk management forms an integral part of the Corporation's activities and is an important feature in all its business operation, deliver channels and decision making processes. The Corporation is able to identify, assess, monitor, manage and report each type of risk, which is critical to its strength, soundness and profitability.

Risk management systems are independently reviewed by the Internal Audit function and communicated to the Board of Members via the Audit & Examination Committee.

The Corporation has exposure to the following risks from its use of financial instruments:

i) Credit risk

- ii) Market risk
- iii) Liquidity risk

Market risks consist of:

(i) Foreign currency exchange risk – risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

(ii) Fair value interest rate risk - risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

(iii) Cash flow interest rate risk – risk that future cash flows associated with a financial instrument will fluctuate. In the case of a floating rate debt instrument, such fluctuations result in a change in the effective interest rate of the financial instrument, usually without a corresponding change in its fair value.

(iv) Price risk – risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer of factors affecting all instrument traded in the market.

(v) Credit risk – risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

(vi) Liquidity risk (funding risk) – risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments.

### (Incorporated under Credit Corporation Ordinance, as amended)

## Notes to the Financial Statements for the financial year ended 31 December 2021

#### 26 Financial instruments (continued)

### (c) Credit risk

Credit risk is the risk of financial loss due to failure by customers or counterparties to financial instrument in meeting their contractual obligations. The Corporation's exposure to credit risk arises principally from financing granted to customers and investment of funds with other counterparties.

The Corporation is financing bases are mainly comprised of personal financing facilities for civil servants. The Corporation enjoys the privilege of direct salary deduction administered by Biro ANGKASA and the State Treasury. The repayment mechanism mitigates the significant credit risk from its large exposure to unsecured personal financing.

The Corporation has a financing policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring financing. Collateral is required for the business and housing financing.

The Corporation has established a comprehensive credit policy that integrates the internal grading system to ensure creditworthiness of potential customers and this is further certified by the formation of a Loan Application Appraisal Committee which analyses loan applications for Board members approval. To further mitigate the credit risk the Corporation faces, a non- performing account (NPA) prevention squad was created. Processes that provide early warning that an account is about to become an NPA have also been placed.

The Corporation writes off a financing upon being assessed and determined as bad loans. Assessment is by way of considering any significant change of clients' financial position, employment status, behaviour and so forth. Write off also take place on balance outstanding upon disposal of loan securities. The Corporation's write off process have to undergo approval by Bad Debt Sub-Committee and thereafter endorsement by Board members prior to submission to the Ministry of Finance.

### (i) Maximum exposure to credit risk

The following table presents the Corporation's maximum exposure to credit risk of on-balance sheet and off-balance sheet financial instruments.

For on-balance sheet assets, the exposure to credit risk equals the carrying amount.

For credit commitments, maximum exposure to credit risk is the full amount of the undrawn credit facilities granted to customers.

# Notes to the Financial Statements for the financial year ended 31 December 2021

#### 26 Financial instruments (continued)

#### (c) Credit risk (continued)

(ii) Collaterals

In mitigating credit risk on financing and advances granted to customers, collaterals are obtained as follows:

- a) Housing loan charges over residential properties
- b) Mortgage loan charges over landed properties
- c) Business loan charges over landed properties
- (iii) Credit quality
- (a) Loans and advances
- i) Neither past due nor impaired financing and investment securities

These are financing and investment securities from which contractual payment of profit or principal have not defaulted and therefore are not impaired since there is no objective evidence of impairment.

ii) Past due but impaired financing and investment securities

Past due but not impaired financing and investment securities, other than those carried at fair value through profit or loss, are those for which contractual interest or principal payments are past due, but it is believed that impairment is not apporpriate on the basis of the level of security/collateral available and/or the stage of collection of amounts owed to the Corporation.

Loans and advances are summarised as follows:

Neither past due nor impaired         RM         RM           Past due but not impaired         2,380,492,220         2,309,121,220           Past due but not impaired         307,704,577         152,634,361           2 months         134,298,575         237,907,882           3 months         57,328,722         109,986,528           4 months to 6 months         57,328,722         109,986,528           7 months to 9 months         13,113,474         500,528,771           Past due and impaired         20,186,583         27,478,403           7 months to 9 months         13,113,472         17,574,739           More than 9 months         67,347,732         78,541,988           100,647,787         123,595,130         100,647,787           Gross loans and advances         2,980,471,881         2,933,245,121           Less:         Allowance for losses on loans and advances:         -           - individual assessment allowance         (62,475,971)         (82,164,663)           - collective assessment allowance         (38,275,107)         (34,006,490)           Interest/income-in-suspense         (12,816,936)         (14,424,164)           Unknown slip         (192,201)         (288,985)           Total net loans and advances         2,866,711,666	Group and Corporation	31.12.2021 RM	31.12.2020 RM

#### 26 Financial instruments (continued)

#### (c) Credit risk (continued)

Customers profile past due and impaired are summarised as follows:

Group and Corporation	31.12.2021	31.12.2020
	RM	RM
Residential property	10,431,960	10,787,364
Hire purchase	120,805	221,591
Islamic finanacing	72,233,281	92,207,092
Personal credit	7,281,060	9,461,339
Project loan	10,580,681	10,917,744
	100,647,787	123,595,130

### (d) Market risk

Market risk is the risk of loss arising from adverse fluctuation in market prices, such as interest rates, equity prices and foreign currency and other macro-economic factors that eventually affect the Corporation's profitability, cash flows and capital preservation.

#### (i) Profit rate sensitivity analysis

The Group and Corporation finances its operation through internal and external sources of funds. External sources of funds consist of borrowing from Sabah State Government and other financial institution which carries different fixed interest rates. The policy of the Group and Corporation is to maximise the returns of the interests and at the same time able to service the interest costs of various loan portfolios.

Although Group and Corporation has exposure to sensitivity of profit rate due to its investment in quoted securities, Management considers the exposure as not material to the Group's and Corporation's financial statements.

#### (ii) Equity price risk

Although Group and Corporation has exposure to equity price risk due to its investments in quoted securities, Management considers the risk as not material to the Group's and Corporation's financial statements.

(Incorporated under Credit Corporation Ordinance, as amended)

## Exposure to profit rate/ interest rate risk

The tables below summarise the Group's and the Corporation's exposure to profit rate risks. Included in the tables are the Group's and the Corporation's financial assets and financial liabilities at their carrying amounts, categorised by the earlier of contractual repricing or maturity dates. As profit rates and yield curves change over time, the Group and the Corporation may be exposed to loss in earnings due to the effects of profit rates on the structure of the statements of financial position. Sensitivity to profit rates arises from mismatches in the repricing dates, cash flows and other characteristics of the assets and their corresponding liabilities funding.

## 26 Financial instruments (continued)

## (e) Liquidity risk

Liquidity risk is the risk of financial loss arising from the inability to fund increases in assets and/or meet obligations as they fall due. Financial obligations arises from the withdrawal of deposits, funding of loans committed and repayment of borrowed funds. The Corporation practices prudence concept in managing liquidity risks by maintaining sufficient cash and the availability of funding through certain committed facilities.

The Corporation diversified its sources of funds where the borrowings maturity profile are identified and the Corporation maintain optimum ratios of long term funding. This ratio significantly match the ratio of long term financing receivable determined based on customers' contracted terms of repayment and payment patterns.

As Corporation does not have access to deposi taking, it has become increasingly more dependent on bank borrowinsg and the debt capital market, thus exposing it to refinancing and liquidity risk.

## (i) Liquidity risk of assets and liabilities

The main thrust of liquidity management is the projection up to one year of the maturity profile of the Corporation's assets, liabilities and off-balance sheet commitments from a given position.

The focus is on ability of the Corporation to match its short-term liquidity requirements arising from maturing obligations with maturing assets, followed by a medium term assessment of liquidity of up to one year. The primary basis for determining the appropriate time bands is the contractual maturity, which is when the cash flows crystallises.

## Notes to the Financial Statements for the financial year ended 31 December 2021

#### 26 Financial instruments (continued)

#### (e) Fair value measurement

The Corporation measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2: Quoted prices for identical or similar instruments in markets that are not active; and model-valuations in which inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3: Valuations derived from valuation techniques in which one or more significant inputs are not based on observable market data.

Financial instruments are classified as Level 1 if their value is observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active market where the quoted prices is readily available, and the price represents actual and regularly occurring market transactions. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an on-going basis. These would include actively traded listed equities and actively exchange-traded derivatives.

Where fair value is determined using unquoted market prices in less active markets or quoted prices for similar assets and liabilities, such instruments are generally classified as Level 2.

In cases where quoted prices are generally not available, the Corporation then determine fair value based upon valuation techniques that use as inputs, market parameters including but not limited to yield curves, volatilities and foreign exchange rates. The majority of valuation techniques employ only observable market data and so reliability of the fair value measurement is high.

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). This category includes unquoted shares held for socio economic reasons. Fair values for shares held for socio economic reasons are based on the net tangible assets of the affected companies. The Group's and the Corporation's exposure to financial instruments classified as Level 3 comprised a small number of financial instruments which constitute an insignificant component of the Group's and the Corporation's portfolio of financial instruments. Hence, changing one or more of the inputs to reasonable alternative assumptions would not change the value significantly for the financial assets in Level 3 of the fair value hierarchy.

The Group and the Corporation recognise transfers between levels of the fair value hierarchy at the end of the reporting period during which the transfer has occurred. Transfers between fair value hierarchy primarily due to change in the leval of trading activity, change in observable market activity related to an input, reassessment of available pricing information and change in the significance of the unobservable input.

(i) The table below summarises the fair value hierarchy of the Group's and the Corporation's financial assets and liabilities measured at fair values.

Group and Corporation 31.12.2021	Level 1 RM'000	Level 2 RM'000	Level 3 RM'000	Total RM'000

### (Incorporated under Credit Corporation Ordinance, as amended)

## Notes to the Financial Statements for the financial year ended 31 December 2021

#### 26 Financial instruments (continued)

The fair values are based on the following methodologies and assumptions:

#### Short-term funds and placements with banks and financial institutions

For deposits and placements with banks and other financial institutions with maturities of less than six months, the carrying value is a reasonable estimate of fair value. For deposits and placements with maturities six months and above, estimated fair value is based on discounted cash flows using prevailing money market profit rates at which similar deposits and placements would be made with financial institutions of similar credit risk and remaining period to maturity.

#### Loans and advances

The value of fixed rate loans with remaining maturity of less than one year and floating rate loans are estimated to approximate their carrying amounts. For fixed rate loans with remaining maturity of more than one year, the fair value is estimated by discounting the estimated future cash flows using the prevailing market rates of loans with similar credit risks and maturities.

The fair values of impaired floating and fixed rate loans are represented by their carrying value, net of individual assessment allowance, being the expected recoverable amount.

### Deposits and placements of other financial institutions

The estimated fair values of deposits and placements of other financial institutions with maturities of less than six months approximate the carrying values. For the items with maturities six months and above, the fair values are estimated based on discounted cash flows using prevailing money market profit rates with similar remaining period to maturities.

#### Other assets and liabilities

The carrying value less any estimated allowance for financial assets and liabilities included in 'other assets and liabilities' are assumed to approximate their fair values as these items are short term in nature.

#### Valuation of financial instruments not carried at fair value

Set out below is a comparison of the carrying amount and fair value of the financial instruments that are not measured at fair value in the

		Carrying amount		Fair value
